MIDWAY
GAMES INC.

HYDRO THUNDER

You'll be master of the world's waterways when you're at the helm of Hydro Thunder, the turbo-charged superboat racing game that will leave all other racing games scattered in its wake. Choose your vehicle from a selection of **thirteen speedboats**, each with its own handling characteristics. Surge down Lake Powell, the Nile, or any one of **eleven unique tracks** from all around the world, all while discovering **secret paths, hidden power-ups** and **special boat moves** that will give you the edge you need to cross the finish line first. You'll encounter a **variety of water conditions**, from glassy lakes and waterfalls to stormy swells and flowing flumes.

And thanks to the Newtonian physics used in Hydro Thunder's design, you can experience your boat reacting to its **3D surroundings**. A **subwoofer in the seat** that reproduces the rumble of the boat's engine adds intensity to a game so realistic that beginning and advanced players alike will be standing in line for a chance to feel the full throttle adrenaline rush that only a game like Hydro Thunder can give them.

 **MIDWAY**
