

LANE SPLITTER

aagames.com

A driving concept developed for everyone; all age group!

Ride your sport bike at insane speeds through ever changing traffic. Keep an eye out for careless drivers and avoid vehicle blind spots. Easy to learn but hard to master. Do you have what it takes to reach "TOP SPEED"?

The basic idea is to simply drive as far as you can without crashing your motorcycle. To do so, simply use the handle bar to steer from side to side. If you are looking for more of a thrill, simply trigger the boost button. Along the run, there are cars that will certainly in your way. Weave your way through the traffic to get as far as possible.

On a more operational note, the game play starts off quite easy as there are fewer cars and the speeds at which you approach them are bit slow. As you progress the game gets faster and faster and becomes much harder. There is 3 levels of difficulty for the player to choose from.

#SKU: LSE1

Features

- Ticket dispenser
- Difficulty setting adjustment
- 110/220 V
