WHAT ARE YOU CRAZY?

Think you can deal with outrageous speeds of over 200kph, massive jumps and daredevil wheelies? Can you handle the real-time texture-mapped graphics of MANX TT? Three dimensional CG images throw you in the course - and out of control!

HEAR THE ROAR!

MANX TT has the most immersive sound system anywhere. There's five speakers (that's right - five!), so you hear all the explosive echoes of the world's most powerful bikes in full-force surround sound - it'll blow you away!

- The five speaker system separates and delivers sound effects straight to your ears - roaring engines, screeching tires and killer background music!
- The newly developed "Duct Speaker" allows for real exhaust sound and vibration sampled from actual 'TT' bikes!

FEEL THE GROOVE!

MANX TT's A.M.S. (Active Motion Slider) lets you feel the bike's reaction to the course. Crank the throttle and experience the power of MANX TT!

SEE IT ALL!

Ultra-realistic 50 inch projector for the deluxe model and two 29 inch monitors for the twin model display the action in full detail - Right in your smilin' face!

- MANX TT features incredible natural sceneries on the Isle of Man. This place is tough - there's drastic changes in both terrain and altitude, providing continuous challenges for even the most hard-core riders!
- Alternate your perspective with the V.R. button!

WANNA RACE?

MANX TT's interactive function lets up to 8 people enjoy simultaneous competition!

- Choose either the TT course or the Seaside Course
- Automatic or 6 speed manual transmission

With awesome graphics, sound effects and extreme competition, MANX TT has proven profit potential!

MANX TT Deluxe
