# SKY TARGET

## GO BALLISTIC!

SEGA's aerial assault adventure takes you to the skies with stomach-dropping 3D realism. Use your ace fighting skills and nerves of steel to carry out an incredibly dangerous mission against a vicious enemy counterattack! You have the world's most advanced fighter plane - so take control, lock 'n load, and prepare for a dogfight!

## EARN YOUR WINGS!

### The Mission:

A multinational weapons manufacturing corporation has stolen the U.S.'s super-high performance fighter plane - the XF/A-49, aka "White Sword." You must infiltrate enemy territory and destroy the XF/Z-49 before the plane's confidential information is leaked to unfriendly forces.

- SEGA's 3-D shooting air battle game explodes with gut-wrenching graphics, all made possible through the "Model 2" 3D CG Board.
- With 300,000 texture mapped polygons per second and accurately reproduced aircrafts, SKY TARGET'S level of realism will have you shaking from the G-force rush!
- Choose from four different planes: the F-14D, F-15S/MTD, F-16C, or the Rafale M, each carrying equal and unlimited weaponry, so you can shoot to your heart's desire.
- Lock-on your opponents and shoot them down using guided missiles or machine guns, depending on distance from your target.
- Blast through the six missions, racking up points by total hit and accuracy percentages.
- Following the ballistic barrage of enemies, you'll encounter huge bosses, which must be defeated to advance levels.

Sky Target's four high-tech fighter planes, easy-to-use controls and realistic air battle will appeal to various gamers - novice to ace!!
