SMOKIN' TOKEN™

This fast paced game of skill is designed to offer thrilling entertainment for all ages. Over 50 years of Seidel experience with redemption games has gone into the development of "Smokin' Token". Fun and excitement abound as players' coins race down the Ski Jump and fly through the air towards the target. Will they win big? That depends on the players' ability to pass their coins through slots in the wheel rotating in front of the target opening. If they miss, all is not lost. The TICKET MULTIPLIER increases with every 2, 3 or 4 consecutive misses and will multiply the ticket amount of their next score. This feature rewards amateurs while they gain experience and will keep the experts dropping coins to win the high ticket amounts. The BONUS COUNTDOWN gives additional excitement to "Smokin Token." BONUS COUNTDOWN begins when a coin or token jumps through any of the four BONUS slots. Players Win JACKPOT Tickets by scoring another BONUS during the countdown. "Smokin' Token's" TICKET AMOUNT display adds tickets as they are won and subtracts them as they are dispensed. Should tickets run out, the display will show the remaining amount due the player and add tickets as play continues. When the ticket supply is replenished, the dispenser will automatically resume dispensing until the players' remaining tickets are dispensed. "Smokin' Token's" many features together with its great sounds and ease of operation will make it a sure winner with your customers.

FEATURES:
