INTRODUCTION

Temple Run 2™ is an amusement redemption game in which the player tries to collect as many coins as possible in the time allowed, while running along a jungle path. The player must jump, duck, or turn to avoid obstacles.

Collecting enough coins will allow the character to use their “special power” by pressing the select button when the power meter is full. As a bonus, extra coins, tickets and time can be collected along the way.

There is also an optional “jackpot” worth a large amount of tickets. The player is awarded tickets based on how many coins and bonus objects were collected.

SAFETY NOTICE

This Manual describes how to set up and use this product. It is intended to instruct operator and maintenance personnel to safely and correctly operate the machine. Make sure to follow all the safety and warning instructions described to prevent injury or damage to the machine.

- Before connecting the machine to an outlet, verify that the voltage is correct to avoid fires or electric shock.
- DO NOT touch the plug with damp hands.
- To avoid electric shock and short circuits, DO NOT expose the power cord or ground wire across walkways.
- To avoid fires, DO NOT place any flammable objects close to the power cord.
- When plugging/unplugging the power cord, make sure to hold plug. DO NOT pull on the power cord.
- In the event of a frayed power cord, please contact your dealer for replacement.
- DO NOT use fuses or parts that are not recommended by the manufacturer.
- DO NOT disassemble, change or modify the machine without authorization. Inappropriate handling of the machine will cause damage to the machine and injury threat to players and spectators.
- Please check and maintain the machine regularly.
- Standing or climbing on the machine is prohibited to avoid any injury to players and spectators.
- Coastal Amusements assumes no responsibility for the placement or operation of this game. Nor do they guarantee any merchantability or fitness for a particular purpose. Coastal

Amusements reserves the right to change this publication at any time without obligation to notify anyone of such revisions or changes.

POWER SOURCE

IMPORTANT! MACHINE MUST BE CONNECTED TO A GROUNDED POWER SOURCE OF 120 VOLTS AC. MACHINE MUST HAVE GROUND CONNECTION FOR PROPER OPERATION AND USER SAFETY PROTECTION. DO NOT OPERATE EQUIPMENT WITH GROUND LEAD CUT OFF POWER CORD. SHOULD LOCATION NOT HAVE GROUNDED OUTLET(S), CONTACT A QUALIFIED ELECTRICIAN.

MENU OPTIONS

Press the **MENU** button inside the coin door to enter the Main Set up Menu.

Use the trackball to navigate the menu items.

Press the **Select** button to select an option.

Use the trackball to modify the option.

Press the **Select** button to save that setting.

Use **NEXT PAGE** and **PREVIOUS PAGE** to advance through the menu.

Select **EXIT** when you complete the set up.

SETTINGS

Characters: Tracks the number of times each of the 8 characters is chosen by the player.

Avg. Game Time = the average play time of a game, including all continues.

Avg. Game Time/Cr. = the average play time (see above) divided by the number of credits.

WIRING BLOCK DIAGRAM

INSTRUCTIONS FOR SETTING MOTHERBOARD BIOS

NOTE: This is only needed if the motherboard does not power up when the game is turned on!

1. Connect a keyboard to the motherboard.
2. Turn on power to the game.
3. Short the two pins (shown in the picture) to each other. The power supply should turn on the the CPU fan should start spinning.

4. Press the delete key multiple times while it is booting up to enter the BIOS menu.
5. Select the SETTINGS option (just press ENTER)

6. Select Advanced

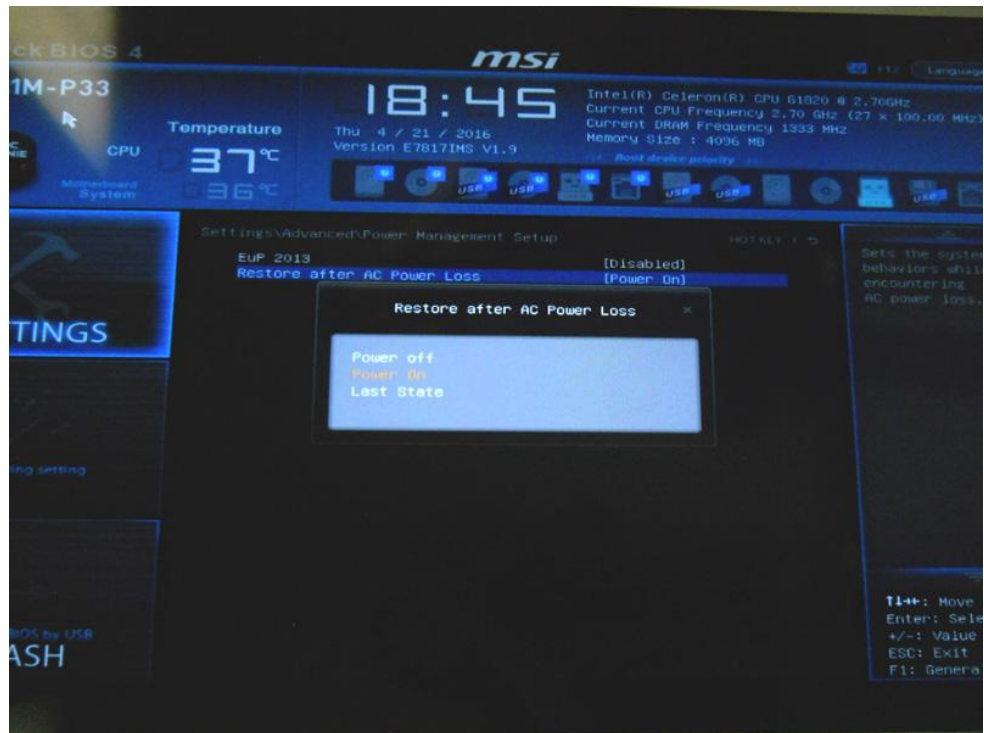

7. Select Power Management Setup

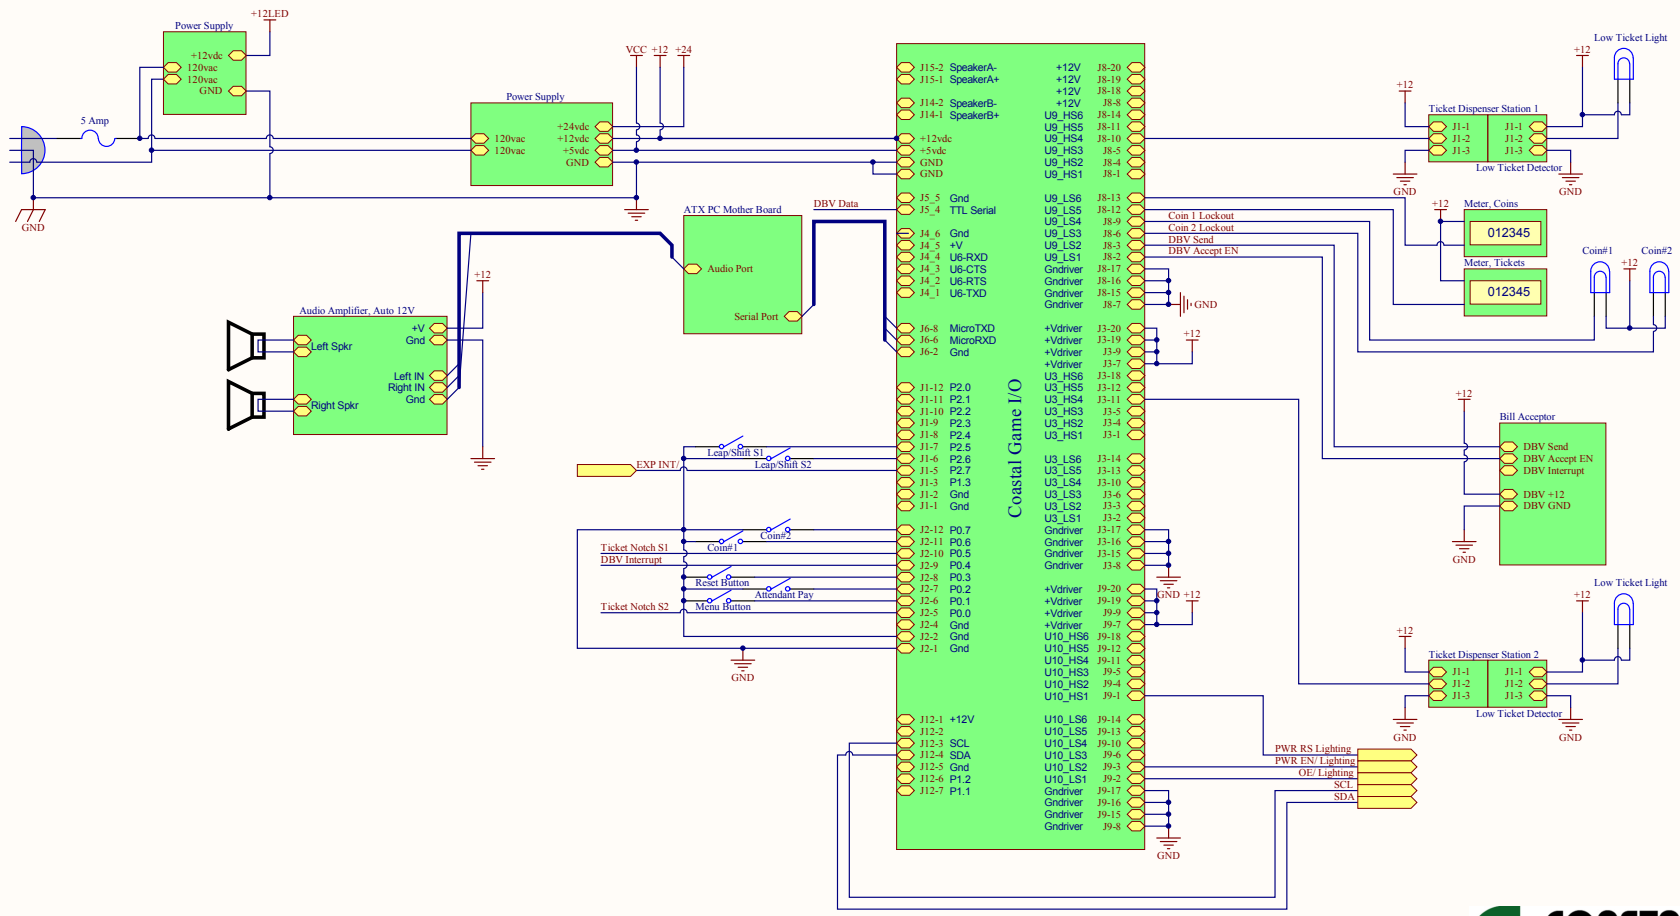

8. Select Restore after AC Power Loss

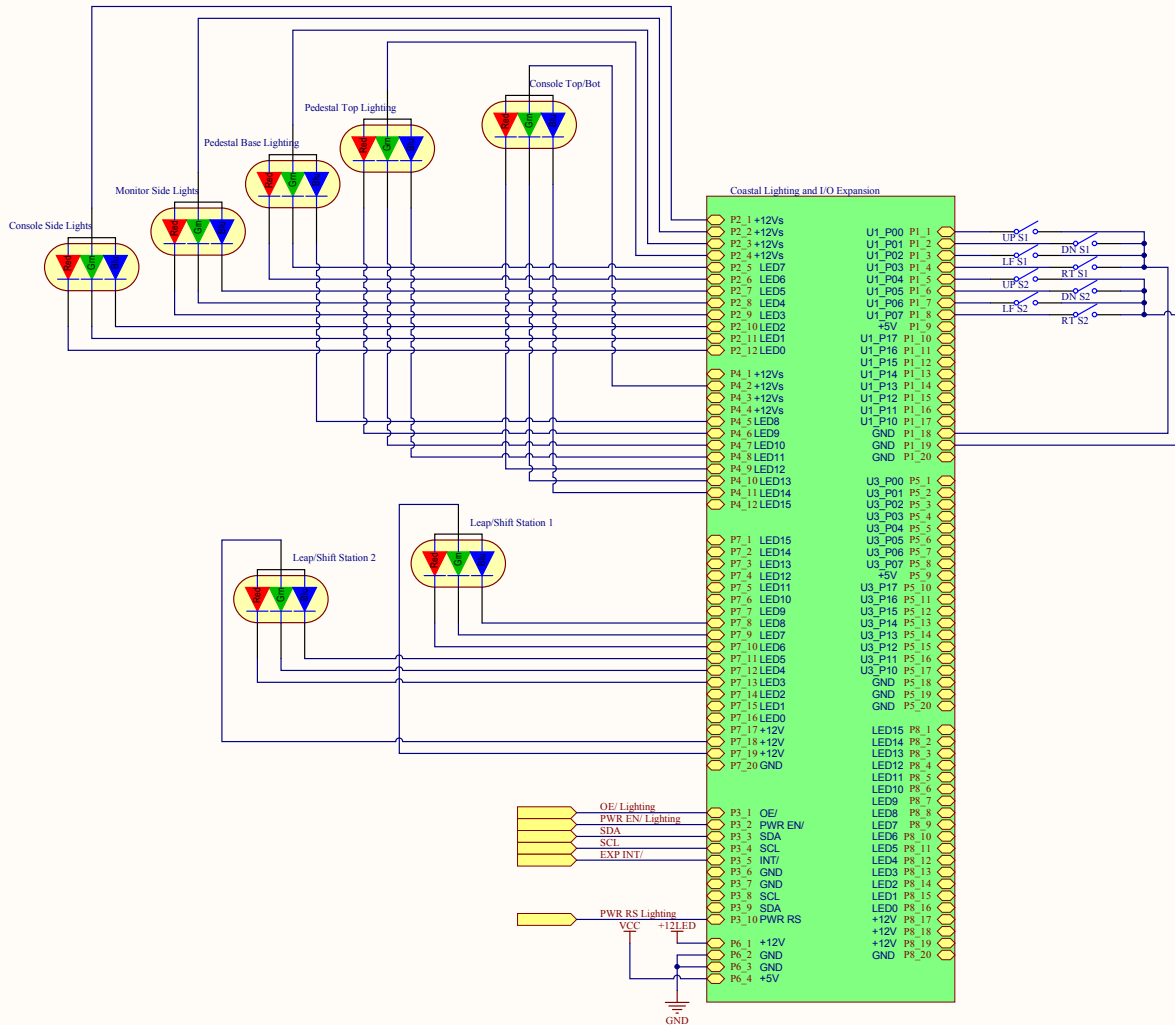

9. Select Power On

10. Press the ESCAPE key twice to return to the top menu. Select Save & Exit.
