

FULLY AUTOMATED VIRTUAL ARCADE CABINET

VRsenal is the leader in attendant-free commercial VR systems. With deployments operating across five countries under real-world conditions for over two years now, every VRsenal product is designed for maximum revenue per square foot, rock-solid reliability, and hassle-free operation.

VIRTUAL ARCADE CABINET FEATURES

- Fully automated
- No attendant required
- Footprint of just 36 square feet (3.34 square meters)
- Goes from pallet to fully operational in 30 minutes
- Always-charged controllers – no need to change pairs mid-day
- Integrated with Embed, Intercard, and all major private label card readers & credit card systems
- Hi-fidelity sound system
- Commercial-grade, high-resolution headset
- 15 plays per hour
- Game-play sizzle video displayed on 80-inch screen to attract customers when arcade cabinet is empty

SPECIFICATIONS

- 6 ft (1.83 m) wide
3 ft (0.91 m) deep
10 ft 4 in (3.05 m) high with holographic signs
8 ft 4 in (2.54 m) high without holographic signs
- 80-inch (203-centimeter) 4k screen displays for onlookers what the player is seeing in the headset, and is protected by quarter-inch thick laminated safety glass
- VR-ready PC, with Intel Core i7 processor, solid-state drive and Nvidia GTX graphics card
- HTC Vive Pro headset
- Holographic game title projector – to project animated game title in the air above the cabinet
- Cable retraction and management system to provide 99% wireless experience
